

FEROSA QUALITY CONSULTANT

Mechanical Engineering (NPI) & Quality Management Professional

About Us

Ferosa Quality Consultant is a professional engineering and quality management consulting firm dedicated to helping organizations achieve operational excellence through robust engineering solutions, effective quality systems, and internationally recognized management standards.

We specialize in **New Product Introduction (NPI)**, **Supplier Quality Assurance (SQA)**, **Quality Auditing**, **Quality Management Systems (QMS)**, and Training on Lean production, supporting manufacturers and organizations across industries, including automotive, aerospace, defense and security, electronics, Medical Devices, oil & gas, consumer products, and industrial manufacturing.

Our experienced consultants combine technical expertise with practical industry knowledge to improve product quality, reduce operational risks, enhance supplier performance, and ensure compliance with international standards.

Our Vision

To be a trusted global partner in engineering and quality excellence, delivering sustainable solutions that improve business performance and customer satisfaction.

"To empower organizations with world-class engineering, quality assurance, auditing, and quality management solutions that drive innovation, reliability, customer satisfaction, and continuous improvement."

Our Mission

To empower organizations with innovative engineering solutions, robust New Product Introduction (NPI) processes, comprehensive auditing services, Software Quality Assurance (SQA), and world-class quality management consulting. We are committed to helping our clients achieve operational excellence, regulatory compliance, continuous improvement, and sustainable business growth through integrity, technical expertise, and customer-focused service.
